\_\_\_\_\_

East Akron Neighborhood Development Corporation (EANDC) is a 501(c)(3) non-profit organization that improves communities by providing quality and affordable housing, comprehensive homeownership services and economic development opportunities.

Your tenant at the address above qualifies for EANDC's Electric Partnership Program (EPP). EPP is a **FREE** energy efficiency program which helps low-income residents lower their energy consumption by performing an energy audit of the home, installing compact florescent light bulbs, providing energy savings consumer education, and replacing inefficient refrigerators and/or freezers in Stark and Summit counties. This program is funded through the state by Ohio Edison/First Energy and American Electric Power.

Your tenant may be eligible to receive a new appliance. Please review your options, complete the second page, and return the paper to our office either by fax or in the envelope provided. **EPP does not replace any landlord owned appliances unless you exercise option 2 or 3.**

**Option 1:** You may decline all options and retain ownership of the current appliance.

**Option 2:** You may sign ownership of the appliance over to the tenant who may then authorize the appliance to be replaced. The tenant then owns the appliance and may take it with them when they move.

**Option 3:** You may have the appliance replaced and retain ownership of the appliance by paying half of the cost of the appliance. Your cost is \$ \_\_\_\_\_. Mod# \_\_\_\_\_ Ser# \_\_\_\_\_

All inefficient appliances are removed and replaced with brand new Energy Star models free of charge to qualified residents by certified subcontractors under contract with EANDC.

**Landlord Authorization Form is due within 30 days from the date of this letter. Should paperwork not be received your tenant will not qualify to receive appliance.** If you have any questions, please do not hesitate to contact me at 330-773-2095 or 1-866-604-6844. We look forward to creating the partnership with you through the Electric Partnership Program.

### ELECTRIC PARTNERSHIP PROGRAM
